

PEDAL SP-2111

PRODUCT DESCRIPTION

Product Description and Application

A bicycle pedal with a high polished and sturdy aluminium centre body and an aluminium tread cage, specially designed to use on mountain and trekking bikes.

FEATURES

- The sealed “Cartridge Bushing” bearing system with an additional grease fitting guarantees a frictionless movement
- The pedals come with attached and approved retro-reflectors on both sides

TECHNICAL INFORMATION

Pedal type

“Aluminium Cage Pedal” comes with:

- Aluminium body, die cast, with an extra fine ball polished surface
- Tread cage made from aluminium, silver anodized.

Bearing

- “Industry standard” bearing system in a replaceable screw-in bushing
- Each pedal is equipped with one cartridge bearing and one slide bearing

Axle

- CrMo-steel, heat treated to 75HRA (+/-3) case hardness
- With 9/16” x 20TPI threading

Retro Reflectors

- “Snap on” reflectors on both sides
- Approved (BS, JIS, TPP) and in accordance with German StVZO regulations (K370 / K369)

Dimensions

105* x 63 x 26 mm (*Length x Width x Height)

**Length = maximum pedal length while mounted (protruding out of the crank)*

Weight

296 g/pair

Standards

The pedal is designed and produced according to the EN standard

EN-14766 "Mountain-Bicycles - Safety requirements and test methods"

INSTALLATION

Installation & Maintenance

- For assembly and disassembly of your pedal please check the [pedal assembly instructions](#)
- Check your pedal conditions before every ride
- The "screw-in" bearing sleeve allows an easy replacement
- The grease fitting enables easy lubrication
